

### Physical Development

Reflexes (Cease in Early Months)  
 Toe fanning from sole stroking  
 Grasp resulting from palm contact  
 Startle  
 Long Lasting Reflexes  
 Defecation  
 Urination  
 Sucking  
 Blinking  
 Iris Contraction

### Gross Motor Voluntary Motion

(from top to bottom and from  
 midline to outside)  
 Limb Movement  
 Leg Kicking  
 Arm Waving

### Head Movement

Turning - Lifting

### Trunk Movement

Rolling, Turning, Pivoting

as well as

### Skills of Combined Movement

Sitting Creeping  
 Crawling Walking  
 Stair Climbing  
 Running Jumping  
 Hopping Skipping

### Fine Motor Voluntary Motion

Hand Movement  
 Finger Wiggling

### Hand - Eye

Reaching Grasping  
 Holding Carrying  
 Manipulating

### Intellectual Awareness

Reactions or Responses to:  
 Internal Stimuli  
 Hunger Pain or Discomfort

### Environmental Sensory Input

Sights Sounds Tastes Odors Touch

### Language Development

Receptive Expressive  
 Stimulus Awareness Mimicry  
 Attending Body Language  
 Word Meaningfulness  
 Speaking  
 Reading Writing

### Conceptual Awareness

Permanence  
 Symbolic Representation  
 Recall  
 Thinking  
 Imagining  
 Appropriateness  
 Choice Making  
 Sequencing  
 Abstract Thinking

### Basic Language Concepts

such as  
 Classification Size Shape Color  
 Texture Time & Space Material

### Memory

Immediate Recall  
 Short Term Retention  
 Long Term Recollection

### Culturalization Process

from  
 Dependence  
 through  
 Independence  
 to Interdependence  
  
 Socialization

### Attention Getting Devices

Crying Relocation  
 Physical Comfort  
 Verbal Exchange

### Mimicry

Speech Intonation and inflection  
 Gesticulatory Communication

### Grooming

Bathing  
 Dressing  
 Toileting

### Social Mores

Situational Manners  
 Symbols of Respect  
 Expressions of Appreciation

### Values

Social Conscience  
 Gender Role  
 Work Ethic  
 Charity  
 Community  
 Spirituality

### Psychological Maturation

Displays Awareness of  
 Self then Others  
 Physically then verbally

Displays Awareness of  
 Physical Indication of  
 Emotion in Self then in Others  
 Physically then Verbally

Demonstrates Awareness of  
 Emotional Choices

Demonstrates Ability to  
 Identify and Analyze  
 Specific Emotions

Demonstrates Ability to  
 Choose Situationally  
 Appropriate Emotions

### Cognition of Emotions such as (not listed in any order)

Delight	Annoyance
